

# JACKSON STANDARD.

Official Paper of Jackson County

Office—Commercial Block, Third Story  
Main St., JACKSON, C. H., OHIO.

THURSDAY, AUG. 25, 1870.

## LOCAL MATTERS.

**J. F. TOWELL, Portsmouth, Ohio,** offers to the Merchants and Pharmacians of Jackson county a superior stock of Dry Goods & Notions, on terms the most favorable.

Advertisements for insertion in the STANDARD, must be handed in by noon on Tuesday each week, as the paper is made up on Tuesday evening.

## LOCAL BRIEFS.

The clock on the Court House is not doing much good. It has been stopped twice during the past week.

The Democrats had a convention here last Saturday, to appoint delegates to the Congressional convention.

There is not so much sickness here at present as there was a short time ago. There have been very few deaths.

Mr. Alanson Robbins has secured half fare on the railroad on the day of the Sabbath School Celebration, and the train will be over until four o'clock.

The weather during the past week has been delightful. On Sunday and Monday mornings the thermometer stood 88, and the highest point reached on either of those days was 78.

The Public School House is being re-painted, and fixed up generally, for the fall term of the schools, which will commence on Monday, September 6th.

Mr. William Parks was in our office last week, and he says friend Hawk of Missouri will have to yield to "Baby Grimes" in weight.

"Baby" now weighs 227.

The election for Marshal on last Monday was conducted in a quiet manner. Barney O'Connor, Republican, was elected over Wm. H. Palmer, Democrat, by 68 majority.

The "Riversides" of Portsmouth came up here on last Saturday and had a game of base ball with the "Red Hot" of Jackson. We were not present, but we are informed that the Jacksons got pretty badly beaten.

There were a number of notable characters in town on last Saturday. Col. Coates, Col. Tuttle, Col. Moore, James W. Newman, editor of the Portsmouth Times, and George A. Waller, of Portsmouth, were all here.

When in Portsmouth last week we stopped at the Taylor House, owned by Will Taylor, still clerk, and Mr. Prendergast, landlord. These gentlemen were as affable and polite as usual. A large wing is being built to this house, on Market Street. The basement was built, and the sleepers were being laid. This will add, we think, some 35 more rooms to the house. There is little confusion in the building, and everything is going on, but the accommodations are plentiful. They know just how to keep tavern at the Taylor House, and all see.

Much has been said in the papers about a human footprint found by Col. Graham in West Virginia. He showed it to us when in Portsmouth. It looks like a shoe sole, and is about an inch thick, rounded off at the edges. It is a stone, of a dark color, and was found in a coal vein, eight hundred feet under the hill. It is about the ordinary size of a woman's foot, and looks much like it might have been a foot of wet sand which had been sticking to the bottom of a foot with a moccasin on it. This sand, becoming stone, has retained the shape of the bottom of the foot. It might have been a foot of a woman, or it might have been a foot of a man.

When in Portsmouth last week we saw Judge Wm. Butler. He is now in his eighty fifth year, and is as lively as many a man of fifty. He informed us that he had worked at the Salt Works at this place in the year 1835. He said Joseph Jones, since that time Governor of Ohio, worked at the Salt Furnaces here at the same time. He said that Joseph Jones was located on the bluff from where the Presbyterian Church now stands, down the creek near the M. E. Church. Where Main Street is now located, was then a poor pasture land. In this field there were nights almost every day, and blood could be seen on the ground almost all the time. It was the result of these fights. He says several numbers were committed here in those early days, and in one case a drunken man was thrown into a salt furnace and burned up.

Demorest's Young America, the juvenile Prince of Magazines, is on our table, and we find, as ever, that the children are on the verge of expectation for the good things they are always sure to find in it. The chronicle of the Baltimore Oriole makes the present number especially attractive, and "Fiddling Freddy" still excites the attention of the juveniles. Yearly, \$1.50, with a beautiful premium, worth the cost of Young America. Address W. Jennings Demorest, 338 Broadway, New York.

ELIZA E. BURKE.

The above Company issued, the first two months of its existence, 700 policies, and received 12,000 Applications in the same time, thereby proving its system to be the most popular ever adopted. Its plain common sense contract is fully appreciated by business men, as its business shows, and its honorable dealing is abundantly proven by the above.

C. C. MILLER, Esq., is the Co's agent at Jackson, and all desiring insurance at low rates should apply with him before insuring elsewhere.

Demorest's Monthly Magazine combines the most useful, beautiful, comprehensive and complete Magazine now issued. It employs only first-class writers in all its numerous departments, including Music, Stories, Poetry, Household matters, Architecture, and Gardening; and its fashions are unquestionably far ahead of all others, both for beauty and Originality. Demorest's Monthly, for handsome typography, high-toned literature, and first-class illustrations, is not excelled by any other. The September number, just issued, is fully up to its usual standard, and fully entitles it to the claim of being the Model Parlor Magazine of America. Yearly, \$5. A choice of premiums, worth from two to ten dollars, is given to each subscriber, among which is a splendid Parlor Chromo, worth \$5. Address W. Jennings Demorest, 338 Broadway, New York.

Colton's European War Map is evidently the most reliable one published. It is on a sheet 19 by 22 inches, the upper portion showing on a scale of twenty miles to an inch, the French and German Frontiers. The scale is sufficiently large to show all the Fortified Cities and other principal points of interest, and the Villages and Streams that will necessarily be mentioned in the war news. On the same sheet there is a Map of Central and South-Western Europe, showing all of Prussia, France, Spain, and Italy. It is handsomely colored, and illuminated with the Flags of the Combatants, etc.

For sale at all Book Stores and News Offices, or sent by mail for Fifty Cents by the publishers, G. W. & C. Colton & Co., New York.

Dandruff, so annoying from its unsightly appearance on the clothing, and from the itching and burning of the skin, is detached easily, or outside layer of the skin. It is thrown off by the presence of humors. Ring's Vegetable Ambrosia is compounded in part to eradicate this humor from the scalp, and it does it most effectually in every case, leaving the head cool and clean and the clothing as it came from the tailor's.

Backingham's Dye for the Whisker—price 50 cts. Manufactured by R. P. Hall & Co., Nashua, N. H.

## HAIR VEGETABLE SICILIAN HAIR RENEWER.

ITS EFFECT IS MIRACULOUS.

It is a perfect and wonderful cure. Cures baldness. Makes hair grow. A better dressing than any "oil" or "pomatum." Softens brash, dry and wiry hair into beautiful Silken Tresses. But, above all, the great wonder is the rapidity with which it restores GRAY HAIR TO ITS ORIGINAL COLOR.

The whitest and worst looking hair resumes its youthful beauty by its use. It does not dye the hair, but strikes at the root and fills it with new life and coloring matter.

The first application will do good; you will see the NATURAL COLOR returning every day, and

BEFORE YOU KNOW IT, the old, gray, discolored appearance of the hair will be gone, giving place to lustrous, shining and beautiful locks.

Ask for Hall's Sicilian Hair Renewer; no other article is at all like it in effect.

See that each bottle has our private Government Stamp over the top of the bottle. All others are imitations.

## Sinking Slowly.

Diseases that progress rapidly to a crisis are not the only ones to be dreaded. Canker or dry rot does not blast a tree as suddenly as a stroke of lightning, but unless arrested, it destroys it as certainly; and in like manner chronic debility, although it does not kill with the swiftness of yellow fever, is as sure to sap the springs of life eventually as any acute disease, if not checked by invigorating medication. There is something expressly touching in the spectacle of premature decay. Languor, pallor, emaciation, depression of spirits, and a distaste for exertion, are its ordinary symptoms, and they should be promptly met by tonic treatment. The best invigorant and exhilarant that can be administered in a case of this kind is Hostetter's Stomach Bitters. The stimulating principle of the preparation rouses the dormant energies of the system, and the strengthening and regulating properties give a permanent and beautiful impulse to the vital forces thus brought into play. The falling appetite is re-awakened, the process of digestion and assimilation are quickened, the quality of the blood is improved, the secretions become more natural, and every organ that contributes to the nourishment of the body undergoes salutary change. By these means the repair of the physical structure is effected and its health and vigor restored. In no class of diseases has the beneficent operation of the Bitters been more marked and striking than in those characterized by general debility and nervous prostration. Ladies affected with these ailments find in this most wholesome of all tonics and correctives the safest and surest means of relief. It is strong to restore and powerful to insure. See the uniform testimony of "clouds of witnesses." Aug. 4, 1870—1m.
